III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During the onsite inspection I observed children having free play and eating lunch. I observed positive child/caregiver interactions. The home is equipped with a variety of developmentally appropriate materials for children to use. I provided consultation on hand washing requirements.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
