### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the onsite inspection, there were two children present. The toddler who was present, counted plastic cookies in a voiced activated jar. Ms. Joshua served eggs, waffles, fruit, and milk. Ms. Joshua plans on submitting a modification request to extend the workdays from five to seven days as well as add an additional child use space on the main level of the home. Technical Assistance was provided to Ms. Joshua regarding the lowering of her fire extinguisher.

The facility is in compliance with all applicable rules and statutes.

### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
