Staff records include background checks, medical clearance information, and

**(6) If the levels of radon gases exceed 4 picocuries per liter of air in the lowest level of the child care home, the licensee shall notify the parents of children in care and have a radon mitigation system installed. The licensee has up to 12 months from the date of the first measurement to meet the standard in subrule (5) of this rule.**

The Radon test was completed and the results were 4.3 pCi/L.
