Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

On 03/21/2024, during an onsite inspection there were three children present at the inspection. Mrs. Herring was observed to sing songs, encourage imaginative play, and used encouraging words with the children in her care. The in home child care center was observed to be clean and tidy with an adequate and varied amount of equipment available to meet the children's developmental needs in her care. The inspected equipment was clean, safe and in good repair.

As a result of the renewal inspection(s) on 3/21/2024, licensing consultant Sharonda Trammer did not find any rule or law violations. A regular license will be issued.
