III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905 Training.

(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.

During the onsite inspection on 05/02/2023, the licensee had not completed 10 clock hours of training for the 2022 calendar year.

R 400.1906 Records of a licensee; child care staff member; child care assistant.

(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:

(g) A written statement, signed and dated by the child care staff member or child care assistant at the time of hiring, indicating all of the following information:

(i) The individual is aware that abuse and neglect of children is unlawful.

(ii) The individual knows that he or she is mandated by law to report child abuse and neglect.

(iii) The individual has received a copy of the licensee's discipline policy.

During the onsite inspection on 05/02/2023, the licensee did not have assistant caregiver forms on file for her staff members.

A corrective action plan was requested and approved on 05/02/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

During the onsite inspection I observed positive child caregiver interactions. The home is equipped with a variety of developmentally appropriate materials for children to use. I provided technical assistance on the following:

- Annual training hours for staff members

- Health and Safety trainings for staff members
- Required forms for staff members

IV. RECOMMENDATION

I recommend the issuance of a regular license to this child care home.
