III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905 Training

(9) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 months of the notice.

A review of MiRegistry shows Ms. Smith did not complete the health and safety refresher for 2021.

**REPEAT VIOLATION: See LSR dated February 18, 2022
Corrective Action Plan dated February 22, 2022**

R 400.1906 Records of a licensee; child care staff member; child care assistant.

(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:

(c) A statement signed by a licensed physician or his or her designee that attests to the individual's mental and physical health., and which must be updated as follows:

(i) For an applicant or licensee, within 1 year before issuance of the initial license and at the time of subsequent renewals.

An updated physical was not submitted for this renewal inspection.

During the onsite inspection, the home was clean and two related children were present. I observed positive interactions between them and Ms. Smith. The facility had adequate amounts of developmentally appropriate equipment and all of it was in good working order.

I provided technical assistance on removing some of the play equipment from the living room area and recommended a review of the required postings on the licensing board for accuracy.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend the issuance of a regular license for this childcare family home.
