III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

At the time of the onsite inspection, Ms. Cook and child care staff member Ms. Louann Bell were present with 12 child care children. I observed clean up after lunch, free play, and outdoor play. The caregivers appeared bonded to the children and provided appropriate care and supervision.

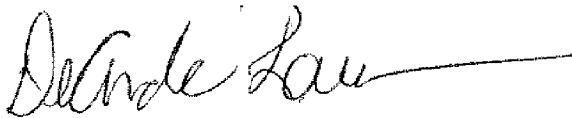

The facility is in compliance with all applicable rules and statutes.

I provided consultation and technical assistance on:

- We discussed R 400.1906(1)(g).
- We discussed R 400.1925(2)(b).

IV. RECOMMENDATION

I recommend the issuance of a regular license.
