III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During the onsite inspection I observed Ms. Blain interacting with the children during one on one learning time, prepping food, outdoor play and a fire drill. I reminded Ms. Blain that the ground covering under play equipment should be checked and TA offers ideas on "adequate covering" as well as to check all child information cards for complete allergy information.

IV. RECOMMENDATION

I recommend issuance of a regular license.
