- Fireplace/wood burner in use during child care hours? No Yes If yes, describe barriers to protect children from burns.

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes. During the inspection, the children engaged in free play. The all appeared to get a long well. Diapering and toileting training was observed. A toddler was napping and observed during the inspection.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
