### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

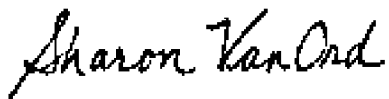

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

When I arrived, Ms. Brown and one child care staff member were providing care to ten unrelated children. Children were engaged in free play. Ms. Brown has a sufficient amount of developmentally appropriate equipment well organized and available for the children to choose from.

The facility is in compliance with all applicable rules and statutes.

### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
