## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, children arrived for after-school care. Two children were picked up shortly after arrival. Two additional children arrived and went outside to play in the snow.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1905            Training.**

(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.

Ms. Chamberlain did not complete ten hours of training in 2020.

**R 400.1907            Child's records.**

(2) Records in subrule (1) of this rule must be reviewed and updated annually or when information changes.

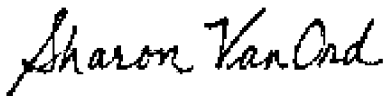

Four child in care statements were not updated annually.

**Technical assistance was provided for the following:**

- Updating Ms. Chamberlain's Michigan.gov/ccbc portal
- As an option for training, go to MiRegistry.org

**IV. RECOMMENDATION**

I recommend issuance of a regular child care license to this group home (capacity 7-12).
