III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

At the time of my onsite inspection, the facility did not have any enrolled children.

The facility is in compliance with all applicable rules and statutes.

I provided technical assistance and consultation on the following:

- Update emergency procedures to include all the requirements of R400.1945
- Complete and maintain a licensing summary sheet for the notebook and maintain inspection reports.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
