III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905 Training

(9) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 months of the notice.

At the time of the inspection Ms. Simmons and her assistant Mr. Simmons did not complete the required 2021 Health and Safety Refresher training. She acknowledged that they both missed it and would take it as soon as possible. I sent her the link for the training, and she stated that she was having trouble logging in but she would try again.

A corrective action plan was requested and approved on 01/26/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

At the time of the inspection, I provided technical assistance and consultation on the following rules:

- The new emergency plans requirements (emailed)
- Vaping sign posting (completed onsite)
- Obtaining documentation of their Course 1 and Course 2 health and safety training

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
