Dear Ms. Salenski:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your home on 06/28/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Family and Group Child Care Homes.

As a result of the inspection, I did not find any rule or law violations.

During the interim inspection, I observed 14 children in care with Ms. Salenski and two child care staff members. I observed television/movie time, bodily care routines, and handwashing, and free play activities. Staff interacted with children in positive ways, by redirecting them appropriately. Infants and toddlers were given chances to explore their environment and practice gross motor skills like crawling and pulling to stand.

I provided Technical Assistance and Consultation on the following:

- Ensuring that package directions are followed for dosage instructions on all over-the-counter medications. Infant Tylenol states that a doctor must be consulted for the dosage amount for any child under age 2, meaning that a doctor's note must be on file with the dosage amount indicated.
- Always follow manufacturer's instructions for equipment like infant seats.
- If parents indicate that a child has a sensitivity to a food, it is a good idea to get more information about it. Consider using the emergency care plan form to document the information.

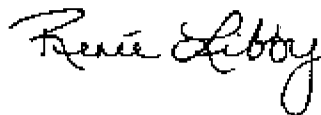

During calendar year 2022:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0

You can find a copy of this inspection letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when inspection letters are completed can be found under [Overview of Licensing Reports](#).
