### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

When I arrived on-site, Mr. Hannah Purvis was present; along with two unrelated children, one related child under six years of age and two related children over six years of age. The children were playing in the playroom in the basement. Ms. Purvis was attending to their wants and needs. The children appeared very happy and comfortable within her care.

The facility is in compliance with all applicable rules and statutes.

Technical assistance and consultation were provided to Ms. Purvis in the following area:

- **R400.1932(1) Home maintenance and safety.** Ensure the open drywall area in the bathroom, located on the basement level of the home, is enclosed.

### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
