## II. Purpose of Addendum

On October 20, 2022, Sandra Edler, licensee, requested to change her emergency exits on the main floor and add the use of a three seasons room.

## III. Methodology

Modification Request Received-10/20/2022  
Inspection Completed Onsite-10/20/2022

## IV. Description of Findings and Conclusions

The terms of the original license were modified on July 1, 2019, September 4, 2020, October 12, 2021, and October 20, 2022.

Best Friend Preschool is located in a two story home in a residential area in Sebawaing. The facility is approved to use the entire main floor of the home. The basement and second floor of the home are not approved for child use space.

On the main floor the eat in kitchen, dining room, living room, three-season room, bathroom and one bedroom for napping purposes only are approved for child use space. On October 20, 2022, I inspected the three-season room. The three-season room has an exit door to the front of the home that will remain locked during child care hours. The door exits onto an unfinished platform deck. The area was previously a covered porch.

The main floor of the home has two remote exits. The side door of the home exits out to the driveway, which faces the west side of the house. On October 20, 2022, I inspected a window exit in the master bedroom of the home. The window exit is labeled and readily opened.

Outdoor play occurs in the rear and front of the home of the home. The area does not contain any water hazards and is fenced as needed. Mrs. Edler moves sections of fencing to create barriers.

## V. Recommendation

I recommend approval of the three-season room and the change in approved emergency exits.
