### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1905            Training.**

**(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.**

Ms. Covert completed 10 clock hours of training for 2020, but only completed 5 clock hours of training for 2021. She completed a corrective action plan to obtain 5 clock hours of make-up training.

**R 400.1906            Records of a licensee; child care staff member; child care assistant.**

**(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:**

**(c) A statement signed by a licensed physician or his or her designee that attests to the individual's mental and physical health., and which must be updated as follows:**

**(ii) For a child care staff member and a child care assistant, within 1 year prior to caring for children and at the time of subsequent renewals of the child care home's license.**

A child care staff member had not completed a physical evaluation for this renewal.

A corrective action plan was requested and approved on 08/29/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

#### IV. RECOMMENDATION
