II. Purpose of Addendum

On 04/20/2022, I received a request from Ms. Waldmiller to add the upper level of the home as child use space. The request was to add the kitchen, living room, and spare bedroom on the upper level and to remove the spare bedroom from the lower level.

III. Methodology

04/20/2022 Inspection completed on-site

04/20/2022 Modification request received

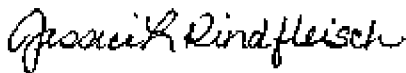

IV. Description of Findings and Conclusions

Ms. Waldmiller lives in a bi-level home. Both the upper and lower level of the home are approved for use. The kitchen, living room, and spare bedroom on the upper level and the main room on the lower level are approved for child care. There is more than enough space to meet the 35 square feet per child requirement.

In addition to the stairs leading to the front door, there is a patio door on the upper level that has stairs that lead down into the backyard that can be used for emergency escape. In addition to the stairs that lead to the main level of the home, there is a door on the lower level that leads directly outdoors that can be used or emergency escape.

V. Recommendation

I approve the addition of the kitchen, living room, and spare bedroom on the upper level and the removal of the spare bedroom on the lower level.
