III. Methodology

02/13/2023 Modification request received

02/16/2023 Onsite Inspection

IV. Description of Findings and Conclusions

The terms of the original license were modified on February 15, 2023.

Mrs. Al-Saedi resides in a two-story home with a basement in a residential area of East Lansing, Michigan. The main play area is located in the lower-level basement and approved for child care use. On the main level the dining area and four seasons room are approved for child care use and the master bedroom is approved for infants napping in cribs or play yards. The kitchen and living room are now approved for child care use. On the lower-level basement, the laundry/mechanical room is not approved for child care use. The entire upper level is not approved for child care use.

Exits on the main level include front and rear doorways both leading directly outside. Exits on the lower-level basement include stairs to the main level and an exit window in the main play area. The window is appropriately sized to allow for the safe evacuation of child care staff members and children in accordance with R 400.1943(3).

V. Recommendation

I approve the addition of the kitchen and living room as approved use space.
