### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During my onsite inspection I observed free play and breakfast time. Interactions between child care staff members and child care children were positive. A rule review was provided in regards to CCBC forms, no vaping signs, hazardous items in drawers and annual updates on child records.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1906                      Records of a licensee; child care staff member; child care assistant.**

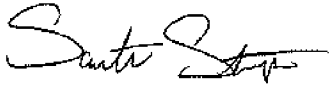

(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:

(b) Daily records detailing arrival times and departure times at the child care home.

Ms. Wright did not record daily arrival and departure times for child care staff members as required.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
