II. Purpose of Addendum

At the 06/16/2020 inspection Tammy Betz requested a modification to the terms of her license to utilize only the kitchen, dining room, and the playroom located on the west side of the home. This would add the large play room on the west end of the home and remove the living room, formal dining room, and enclosed front porch from the licensed.

III. Methodology

06/16/2020: Inspection completed on-site

IV. Description of Findings and Conclusions

Ms. Betz resides in a one and a one and a half story home with a basement in a residential area of Springport. On 10/15/2012 the original license was issued and on 05/15/2019 and 08/21/2019 an addendum to the original license was completed. Currently the enclosed front porch, the living room, the formal dining room, and the kitchen/dining area are approved child use space. The outdoor play area is fenced and located at the front of the home. Ms. Betz has an adequate amount of age appropriate play and learning equipment available. Ms. Betz' most recent radon test is within the acceptable range and complies with the licensing rule.

The following areas are approved for child care use:

The play room located on the west side of the home, the kitchen/dining room, and the formal dining room are approved child use space.

The living room, enclosed front porch, and the bedrooms on the main level are not approved for child use space. The upper level is not approved for child use space. The basement is not approved for child use space. However, the basement will be used for tornado drills and in actual tornado emergencies.

V. Recommendation

It is recommended the terms of the license be modified to add the room on the west end of the home and remove the living room, and the front porch on the main level of the home.
