During the inspection, Ms. Stout engaged in positive interactions with the children during rest time and indoor play. The child care home was well maintained and organized.

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

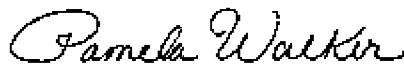

I provided Ms. Stout with technical assistance for the following:

1913 Discipline policy: the discipline policy must include all prohibited methods of discipline.

1907(1)(a) Child information cards: unless otherwise indicated, all requested information must be provided. If the information is not known or does not apply, "unknown" or "none" is the required response. **Note:** a blank field, a line through a field or "N/A" are not acceptable responses.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
