II. Purpose of Addendum

The licensee wishes to have the basement approved for child care use.

III. Methodology

11/28/2022 – Modification request received

11/28/2022 – Inspection Completed Onsite.

IV. Description of Findings and Conclusions

The child care group home is a two-story, single-family home located in the city of Lapeer. It is located on W. Genesee Street, in between Main Street (M-24) and DeMille Street.

The main floor of the home was previously approved for child care use. This includes a family room, a play room, a screened porch, and a “baby area” off of the play room, at the kitchen. There is a half bath located on the main floor for children in care to use.

The basement is now approved for child care use. The basement has two remote stairway exits that both lead to the main floor of the home. In addition, the basement also has four egress windows that can be used for emergency exiting. There is a sink in the basement that can be used for handwashing. There is a wood burning fireplace in the basement that is not used during child care hours.

The 2nd floor is not approved for child care use.

Children ages 6 weeks through 12 years will be accepted for child care.

Ms. Shaw has a wide variety and assortment of age-appropriate toys and equipment suitable for 12 children. She has pack-n-plays and a crib for infant napping.

Child care hours are Monday through Friday from 7:00am until 5:00pm. The child care home is closed on Saturday and Sunday. Nighttime care beyond 11pm is not approved at this time. Ms. Shaw is aware that prior approval from the department as well as beds will be required to provide nighttime care.

Outdoor play will occur in the fenced back yard of the home. There is an above-ground swimming pool that is not accessible to children in care.

V. Recommendation

I recommend approval of the basement as child care use space.
