II. Purpose of Addendum

On 01/19/2023, the licensee submitted a request to add additional licensed space on the upper floor of the home.

III. Methodology

01/19/2023 Modification Request Received
01/24/2023 Inspection Completed On-Site

IV. Description of Findings and Conclusions

The terms of this license have been modified on 03/07/2019 and 01/25/2023.

This group child care home is a two story, wood-framed structure with a finished walkout basement.

On the lower level (**previously approved space**) the playroom and bedroom are approved for child care use.

On the main level (**previously approved space**) the master bedroom, living room, dining room, kitchen, and entryway/mudroom are approved for child care use.

On the upper level (**previously approved space**) the northwest and southeast bedrooms are approved for child care use. Also on the upper level, the southwest bedroom is **newly approved space**.

Exiting from the lower level is available via the central staircase to the main level and a sliding door to a patio (west). Exiting from the main level is available via the front door (east), sliding door to a deck (west), and north door off the mudroom. Exiting from the upper level is available via the central staircase to the main level and a clearly labeled emergency window in the northwest bedroom with an emergency ladder.

Ms. Bandstra cares for children ages birth to 12 years.

Ms. Bandstra has an adequate amount of developmentally appropriate indoor play equipment, and she has a discipline policy that reflects positive guidance and discipline techniques used to direct children's behavior.

The child care operates Monday through Friday, from 7:00 A.M. to 4:00 P.M.

The outdoor play area is a large fenced-in area to the north of the home. There are numerous activities available to children, including but not limited to, play houses,

a boat, climbers, swings, slides, and a small teeter-totter. Children also have supervised access to the driveway for a paved play surface.

V. Recommendation

I recommend the addition of the upstairs southwest bedroom as additional child use space.
