## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

At the time of the onsite inspection, Ms. Langworthy and one child care staff member were present with nine child care children. The children engaged in free play in the child care room during the inspection, and then transitioned to meal time in the kitchen/dining room area upstairs. I observed Ms. Langworthy and the child care staff member to provide direction, guidance and appropriate supervision to the children.

The facility is in compliance with all applicable rules and statutes.

During the exit conference, I provided technical assistance/consultation on the following:

- Discipline policy to include no time outs under the age of three.
- Including last names of children on attendance records.
- Creating individualized emergency plans for children with allergies/medications.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
