Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905

(3) A licensee shall ensure that child care staff members and child care assistants, prior to caring for children, have training that includes information on all of the following:

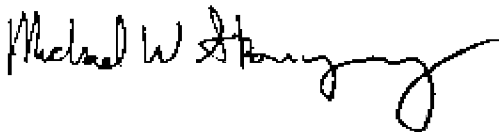

(b) Recognition of and the reporting of child abuse and neglect.

One child care staff member had not completed all of Health and Safety Course 1 or Course 2. Ms. Hadden said the staff member was new and she had forgotten to have her do it.

A corrective action plan was requested and approved on 11/16/2021. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan.
