## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

When I arrived on-site, Ms. Valerie Adams was present; along with child care staff member Mr. Paul Adams. There were six children in attendance with one child being related to Ms. Adams. All of the children were in the basement family room playing with the toys. The children appeared happy and comfortable within the care of Ms. Adams and Mr. Adams.

The facility is in compliance with all applicable rules and statutes.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
