Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the renewal inspection, licensing consultant Tarah Okarski found 4 violations. The violations are listed and explained below. An acceptable written corrective action plan was received on 2/6/2024. A regular license will be issued.

The child care does have a pool but it has a fence around it with a locked gate. In addition, there is a busy road located close by so the fenced in play area protects the children from this hazard.	The front yard is fully fenced in and includes plenty of play equipment for the children in care.
