III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the on-site inspection there were three child care children and two child care staff members. When I arrived, the children were having screen preparing to go outside for outdoor play. All children were being appropriately interacted with and supervised.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1934 Heating; ventilation; lighting; radon.

(4) A licensee shall test the child care home for the concentration of radon gas before the initial license is issued and every 4 years thereafter at the time of license renewal.

Ms. Thomas did not ensure that an updated radon test was completed.

R 400.1945 Emergency; plan; drill.

(4) Fire drills must be practiced while children are in care at least once quarterly, and a written record that includes the date and time it takes to evacuate must be maintained.

Ms. Thomas did not ensure that she conducted timely fire drills and documented the date and time it takes to evacuate.

R 400.1945 Emergency; plan; drill.

(5) At least 2 tornado drills must be practiced while children are in care between March and November, and a written record of these drills that includes the date must be maintained.

Ms. Thomas did not ensure that she conducted timely tornado drills and documented the date and time it takes to evacuate.

A corrective action plan was requested and approved on 06/15/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify

compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
