III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1906 Records of a licensee; child care staff member; child care assistant.

(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:

(a) Daily records detailing arrival times and departure times at the child care home.

Ms. Krichevsky did not maintain daily records of the arrival and departure times for her or her staff member.

R 400.1907 Child's records.

(3) Dated daily attendance records of children in care must be maintained and include the child's first and last name and the time of arrival and departure. Electronic records may be used. If electronic records are used, they must be available to the department at the time of the inspection. If electronic attendance records are not available during an on-site inspection, the child care home is in violation of this rule.

Ms. Krichevsky did not maintain daily attendance records of the children for 03/21/2022, 03/22/2022, 03/23/2022, and 03/24/2022.

IV. RECOMMENDATION

Upon receipt of an acceptable written corrective action plan, I recommend issuance of a regular license to this child care group home (capacity 7- 12).
