### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

I observed Ms. Blehm providing direct supervision of the children resting during nap time upon arrival. I observed safe sleep practices being utilized. I observed children engaged in quiet activities while the other children were resting. The children appeared to be happy and well bonded to the licensee. The home was clean and safe for child care use. Children and staff records were organized and readily available for review.

The facility is in compliance with all applicable rules and statutes.

### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
