III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

TECHNICAL ASSISTANCE: I provided technical assistance for the following:

R 400.1945 (1)(e) Emergency plans; drills:

Please ensure crisis management plan is not posted for parents to view. The plan should be easily accessible to all child care staff members. This is to ensure calm and composed thinking during emergencies and prevents poor judgments being made and possible intruders or active shooters will not have access to plan to ensure children's safety during a crisis.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home.
