III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1906 Records of a licensee; child care staff member; child care assistant.

(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following:

(c) A statement signed by a licensed physician or his or her designee that attests to the individual's mental and physical health., and which must be updated as follows:

(ii) For a child care staff member and a child care assistant, within 1 year prior to caring for children and at the time of subsequent renewals of the child care home's license.

One child care staff member did not have an updated medical exam at time of renewal.

R 400.1921 Water hazards; water activities.

(1) A licensee shall ensure that barriers exist to prevent children from gaining access to any swimming pool, drainage ditch, well, natural or constructed pond, or other body of open water located on or adjacent to the property where the child care home is located. These barriers must be a minimum of 4 feet in height and appropriately secured to prevent children from gaining access to such areas.

During the on-site inspection there was a temporary/soft sided pool that was observed. There was fencing around the area of the pool, however it was not at a minimum of 4 feet in height.

A corrective action plan was requested and approved on 08/10/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
