RE: License #: DG750380726
Johnson & Johnson Daycare
69799 W White Tail Rd
Sturgis, MI 49091

Dear Stephanie & Dustin Johnson:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (616) 356-0183.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

Carrie Harris

II. Purpose of Addendum

On June 8, 2023, the licensees requested to remove the kitchen from the approved child use space.

III. Methodology

06/08/2023 Modification Request Received

06/13/2023 Modify - Other

IV. Description of Findings and Conclusions

The child care group home, located in Sturgis, is a ranch style home on a basement, in a sub-division. The main floor living room, kitchen, and full bathroom were previously approved. The basement level playroom, bedroom, and full bathroom were also approved. The licensee would like to remove the main floor kitchen from the approved child use space and will use a baby gate to prevent children from entering the kitchen area.

The main floor master bedroom, master bathroom, kitchen, and two secondary bedrooms are not approved for care. The basement level storage room and laundry area are not approved for child care use.

The child care group home is approved for serve children birth through 17 years. The licensees have a sufficient supply of developmentally appropriate and varied equipment to accommodate the requested capacity of 14 children.

The child care group home will be open Monday through Friday from 7:00 AM to 5:00 PM.

Ms. Johnson was previously registered as a family child care home provider under license number DF750339691. She has never been licensed for children's foster care.

The main level of the home has three standard door exits. There is a front door, a back door, and a garage door exit. The basement level of the home has two means of exiting. The stairs leading to the main level of the home and a designated window exit. The window is clearly marked and measures 45"x34" and is located 40" above the floor. The licensees have permanently affixed steps with a handrail and platform to assure safe, quick, exiting from the basement window.

The outdoor play area is located behind the home and is completely fenced with two locking gates. There is a play structure over mulch. The licensees have two other separately fenced areas in the backyard. One area is used as a dog run.

The other fenced area has a large above ground swimming pool that will not be used by the children in care. The fencing around the pool is over 4 feet in height all the way around and has two locking gates. The pool will not be used by the children in care and the licensees will always provide direct supervision when children are playing outdoors.

The licensees have three dogs that are separated from the children in care during child care hours. There are no hot tubs or spa pools. There is one large above ground swimming pool that has a four-foot fence around it with two locking gates. There are no other water hazards on the premises. The home has one electric fireplace that is part of an entertainment center in the main floor living room. It will not be used during child care hours.

The licensees have a variance to R 400.1910(1), ratio of personnel to children. The ratio of personnel to children in the home at any one time must be not less than one child care staff member to seven children. The home can have a capacity of 14 unrelated children.

V. Recommendation

I recommend approval of the modification to remove the kitchen from the approved child use space.
