Dear Courtney Deroshia,

This letter is to advise you that the 4/23/2024 corrective action plan you submitted, regarding each rule violation cited in the recently completed Child Care Follow-up Inspection Case, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

Violation cited	Noncompliance observed	Plan to correct	Date to be completed
R 400.1907(1)(a)	I reviewed eight child information cards, and seven of the eight cards were missing required information such as admission dates, release information, the date the parent completed the document, physician information, and allergies and special needs.	The licensee stated that she would go through all of the child information cards and obtain the missing information.	04/30/2024
R 400.1919(3)	One child care staff member did not have evidence of a negative TB test within one year of employment. The child care staff member started employment in 2022, but the TB test on file was from 2014.	The licensee stated that she would have the child care staff member obtain an updated copy of a negative TB test from her physician.	04/30/2024

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
