RE: License #: DG760409985
Miss Angel's
163 Ward
Crosswell, MI 48422

Dear Ms. Hanks:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your home on 05/30/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Family and Group Child Care Homes.

The violations that were found are:

R400.1903(8)(b) Licensee responsibilities.

(8) To comply with section 3c of the act, MCL 722.113c, a licensee shall have a policy and procedure on smoking and vaping that includes all of the following:

(b) Conspicuously post on the premises a notice stating that smoking and vaping are prohibited on the premises during child care hours.

At the time of the inspection, the No Smoking/No Vaping sign was not posted during the time children were in care and when the home was operating. CCSM 1 was working and stated that they typically have the required postings up but they were taken down over the weekend and were not put back up. She agreed to let Ms. Hanks know that they need to be posted daily.

R400.1915(5)

Indoor space; play equipment and materials.

(5) As required by section 15 of the children's product safety act, 2000 PA 219, MCL 722.1065, a licensee shall conspicuously post in the child care home an updated copy of the list of recalled or unsafe children's products that is provided by the department through its Michigan Child Care Matters (MCCM) online newsletter and available at the department's website www.michigan.gov/mccmatters.

At the time of the inspection, the product safety recall list was not posted during the time children were in care and when the home was operating. CCSM 1 stated that they typically have the required postings up but they were taken down over the weekend and were not put back up. She agreed to let Ms. Hanks know that they need to be posted daily.

R400.1945(1)

Emergency; plan; drill.

(1) An applicant or licensee shall have a written emergency response plan for the care of children that must be posted in a conspicuous location within the child care home. The plan must address the following types of emergencies:

- (a) Fire evacuation.
- (b) Tornado watches and warnings.
- (c) Serious accident or injury.
- (d) Water emergencies, if applicable.
- (e) Crisis management including, but not limited to, all of the following:
 - (i) Intruders.
 - (ii) Active shooters.
 - (iii) Bomb threats.
 - (iv) Other man- or woman-caused events.

At the time of the inspection, the required written emergency plans were not posted during the time children were in care and the home was operating. CCSM 1 stated that typically the required postings are up but they were taken down over the weekend and were not put back up. She agreed to let Ms. Hanks know that they need to be posted.

R400.1931(8)

Food preparation and service.

(8) Bottles used for feeding must be labeled with the child's first and last name and date, refrigerated, and served only to the child on the label.

At the time of the inspection, I observed several baby bottles without the child's first and last name and date labeled on it. CCSM1 acknowledged that she usually always documents this but today it was hectic and she couldn't get to it. She had bundled the bottles into one bag instead. I provided her with technical assistance on this rule.

R400.1903(1)

Licensee responsibilities.

(1) A licensee shall be responsible for all of the following:

(f) Post the current license in a conspicuous place within the child care home during the hours of operation.

At the time of the inspection Ms. Hanks did not have the license posted during the time children were in care and she was operating. CCSM 1 stated that she typically has the required postings up but they were taken down over the weekend and were not put back up. She agreed to let Ms. Hanks know that they need to be posted.

R 400.1925

Comprehensive background check; fingerprinting.

(1) Pursuant to section 5n of the act, MCL 722.115n, prior to an individual having any unsupervised contact with children, the department shall determine the individual's eligibility to be any of the following:

(d) A child care staff member.

At the time of the inspection, CCSM2 was working in the home. I conducted a search of the Michigan workforce background check website (CCBC) and did not see a profile for CCSM2 under Ms. Hank's childcare license. Ms. Hanks stated that CCSM2 previously worked for her, but left employment there in acknowledged that she had disconnected CCSM1 when she left employment at the home. She did not reconnect her when she returned.

R 400.1925

Comprehensive background check; fingerprinting.

(2) An applicant or licensee shall do all of the following:

(e) Within the department's child care background check system, accurately complete and maintain the connection, disconnection, or withdrawn status of each individual associated with the license.

During the inspection, I reviewed the Michigan workforce childcare background check website (www.michigan.gov/ccbc) and it showed that CCSM3 was connected to the home as a child care staff member. Ms. Hanks stated that she no longer works in the home and agreed to disconnect her from the website.

R 400.1932

Home maintenance and safety.

(1) The structure, premises, and furnishings of a child care home must be in good repair and maintained in a clean, safe, and comfortable condition.

During the inspection, I observed debris in the backyard play area in a few areas of the yard (mainly behind the house). I instructed Ms. Hanks to clear the yard of any clutter, debris, or trash.

Due to the violations identified in the report, **a written corrective action plan** is required. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

During calendar year 2022:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0

Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
---	---

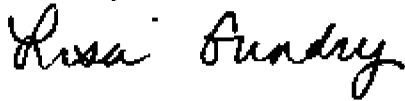

During the inspection, I provided additional consultation and technical assistance to Ms. Hanks regarding the rules for swimming. She had just purchased an above ground pool and plans to use it for the child care children.

You can find a copy of this inspection letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when inspection letters are completed can be found under [Overview of Licensing Reports](#).

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (517) 284-9730.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your Licensing Notebook.

Sincerely,

Lisa Gundry, Licensing Consultant
