This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1905**

**Training**

**(9) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 months of the notice.**

Ms. Stanfield has not completed the 2020,2021,2022 refresher trainings on MiRegistry.

A corrective action plan was requested and approved on 06/08/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

**IV. RECOMMENDATION**
