III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905 Training.

(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.

Ms. Hennessey completed 2 clock hours of training in calendar year 2020.

R 400.1905 Training.

(2) A child care staff member and a child care assistant shall complete not less than 5 clock hours of training each calendar year related to child development and caring for children, not including CPR, first aid, and infectious disease, including immunizations, training.

Child care staff member's Casey Rabindeau and Emma Hennessey both completed 2 clock hours of training in calendar year 2020.

R 400.1942 Electrical service; maintenance.

(2) All electrical outlets, including outlets on multiple outlet devices, accessible to children must have safety covers or be tamper resistant outlets.

I observed outlets in the living room that were not tamper resistant or protected by safety covers.

A corrective action plan was requested and approved on 12/06/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
