III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During the onsite inspection I observed children eating and napping. I observed positive child caregiver interactions. The home is equipped with a variety of developmentally appropriate materials for children to use. I provided consultation on required trainings, combustible materials near the furnace, transportation permission forms, and child in care statements being filled out completely.

IV. RECOMMENDATION

I recommend the issuance of a regular license to this child care home.
