III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

On 3/7/2023, during the onsite inspection, there were seven children present. Children were in the kitchen upon arrival eating breakfast. Afterwards they came downstairs and began a large group time. Children sang their greet songs, they reviewed numbers and letters and counted to 100. Afterwards children went to the tables to explore materials.

Technical assistance was provided regarding getting the recent recall list posted where parents can see it as well as moving the no smoking sign so that it is visible to parents.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
