III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

An onsite inspection was completed on 11/03/2022 at the group family child care home. I observed the caregivers interact appropriately with the children. The children, ate lunch and laid down for nap and participated in educational activities(i.e. puzzles, and worked on their Thanksgiving family posters during the inspection. The child care home is equipped with a variety of developmentally appropriate equipment.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care group home (capacity 7-12).
