Any rule violation which subjects a child to injury or life-threatening situation or any rule violations previously cited but not corrected, may result in the imposition of an adverse enforcement action. Serious or continued noncompliance may also jeopardize participation in one or more DECAL program(s).

Please refer to the website, <http://www.dec.state.ga.us/CCS/RulesAndRegulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

O.C.G.A. Section 42.1.12(i)(2) requires Bright from the Start: Georgia Department of Early Care and Learning to notify licensed child care programs on accessing and retrieving from the Georgia Bureau of Investigation's (GBI) website a list of the names and addresses of all registered sexual offenders. 591-1-1-.14 First Aid & CPR**Not Met****Finding**

591-1-1-.14(1) requires the Center Director and, at any given time, at least fifty percent (50%) of the caregiver Staff to successfully complete a biennial training program in cardiopulmonary resuscitation (CPR) and a triennial training program in first aid. The first aid training must be done by certified or licensed health care professionals or trainers and must deal with the provision of emergency care to infants and children. The Center shall maintain current evidence of the successful completion of such training which shall be available to the Department for inspection. It was determined based on the Consultant's review of staff records that the Director did not have evidence of completing a biennial training program in cardiopulmonary resuscitation (CPR) and a triennial training program in first aid as required.

POI (Plan of Improvement)

The Center Director and at least 50% of the caregiver Staff will complete the needed training. The Director will send written verification to the consultant upon completion and will develop a plan to ensure that at least 50% of the caregiver Staff have completed this training at any given time and that evidence of successful completion of the training is on file available for inspection.

Correction Deadline: 2/16/2020**Finding**

591-1-1-.14(2) requires a Staff member who is trained in CPR and first aid to be on the premises and on any field trip whenever any child is present. In addition, Staff who provide direct care to children must satisfactorily obtain certification in first aid and CPR by December 29, 2016 if employed prior to September 30, 2016 and within 90 days of their hire date if employed after September 30, 2016. It was determined based on the Consultant's review of staff records that one staff member hired on September 10, 2019 and one staff member hired on October 10, 2019, did not have evidence of completing CPR and First Aid training within the first 90 days of employment as required.

POI (Plan of Improvement)

The Center will develop a schedule to ensure there is always a staff person with current first aid and CPR training present and will develop and implement a plan to ensure all staff members have satisfactorily completed first aid and CPR training by the specified date.

Correction Deadline: 2/16/2020**591-1-1-.33 Staff Training****Not Met**

Finding

591-1-1-.33(3) requires each Staff member with direct care responsibilities to complete health and safety orientation training within the first 90 days of employment. The state-approved training hours obtained will count toward required first year training hours. The training must address the following health and safety topics: prevention and control of infectious diseases (including immunizations); prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards for parental consent; prevention of and response to emergencies due to food and allergic reactions; building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome, abusive head trauma and child maltreatment; emergency preparedness and response planning for emergencies resulting from a natural disaster or a human-caused event (such as violence at a child care facility); handling and storage of hazardous materials and the appropriate disposal of bio contaminants; precautions in transporting children; recognition and reporting of child abuse and neglect; and child development. It was determined based on the Consultant's review of staff records that one staff member hired on September 10, 2019 and one staff member hired on October 10, 2019, did not have evidence of completing health and safety orientation training within the first 90 days of employment as required.

POI (Plan of Improvement)

The Center will develop and implement a plan to schedule and track this training for all employees based on their hire dates and will ensure that the training includes all required components as required.
