If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. The following information is associated with a Complaint Investigation by Phone:

Food Service

591-1-1-.15 Food Service & Nutrition

Not Met

Finding Associated with Complaint

591-1-1-.15(4) requires that a feeding chair or similar equipment designed for feeding children shall be provided for the use of each child being fed who is capable of sitting up but who is unable to sit unassisted at a table and must be cleaned with a disinfectant after each use. Such chair or similar equipment shall have a broad base to prevent tipping, a surface that the child cannot raise, a strap or other device which prevents the child from sliding out of the chair, and a feeding surface free of cracks. It was determined based on investigating findings during a review of video footage by the complaint reporter that an infant was sitting in a bouncer seat with a bottle.

POI (Plan of Improvement)

The Center will inspect feeding equipment to ensure it meets each of the listed criteria and to verify a feeding chair or equipment is provided for each child who requires one. The Center will train staff and monitor to ensure that the feeding equipment is cleaned with a disinfectant after each use.

Correction Deadline: 11/10/2020

Sleeping & Resting Equipment

Finding

591-1-1-.30(2) requires the Center to provide a safe sleep environment in accordance with American Academy of Pediatrics (AAP), Consumer Product Safety Commission (CPSC) and American Society for Testing and Materials (ASTM) recommendations as listed in these rules for all infants. Center Staff shall place an infant to sleep on the infant's back in a crib unless the Center has been provided a physician's written statement authorizing another sleep position for that particular infant that includes how the infant shall be placed to sleep and a time frame that the instructions are to be followed. When an infant can easily turn over from back to front and back again, Staff shall continue to put the infant to sleep initially on the infant's back but allow the infant to roll over into his or her preferred position and not re-position the infant. Sleepers, sleep sacks and wearable blankets that fit according to the commercial manufacturer's guidelines and will not slide up around the infant's face may be used when necessary for the comfort of the sleeping infant. Swaddling shall not be used unless the Center has been provided a physician's written statement authorizing its use for a particular infant that includes instructions and a time frame for swaddling the infant. Center Staff shall not place objects or allow objects to be placed in or on the crib with an infant such as but not limited to toys, pillows, quilts, comforters, bumper pads, sheepskins, stuffed toys, or other soft items and shall not attach objects or allow objects to be attached to a crib with a sleeping infant, such as, but not limited to, crib gyms, toys, mirrors and mobiles. It was determined based on investigating findings that during a review of video footage provided by the complaint reporter that an infant in the infant classroom was observed to be swaddled , wearing a hat and sleeping in a crib on an undisclosed date

POI (Plan of Improvement)

The Center will take all steps necessary to provide a safe sleep environment for infants as listed in these rules; will train Staff to follow these rules; and will monitor for compliance.
