Activities and Equipment

290-2-3-.12 Equipment and Supplies(CR)

Not Met

Finding

290-2-3-.12(7) requires all indoor and outdoor furniture and equipment shall be secured if equipment and furniture is of a weight or mass that could cause injury from tipping, falling, or being pulled or pushed over. Potentially unstable equipment and furniture that might injure a child if not secured include, but are not limited to, televisions, chests of drawers, bookcases, shelving, cabinets and fish tanks. Examples of items not required to be secured include, but are not limited to, child-sized tables and chairs, rocking chairs, and cribs. It was determined based on consultant's observation that a flat screen 54 inch television was placed on a low cabinet and was not secured in a way that will prevent it from tipping or falling and potentially causing injury.

POI (Plan of Improvement)

The provider stated that this is a new television and she will secure it with straps. The Home will secure any identified equipment and/or furniture to prevent from tipping or falling over on a child. The Home Provider will ensure that all potentially dangerous equipment is maintained secure.
