Finding

290-2-3-.07(4) requires the Provider, Employees and Provisional Employees with direct care responsibilities to complete health and safety training at the time of employment. Staff employed prior to September 30, 2016 will complete the training by December 29, 2016 and Staff employed after September 30, 2016 will complete the training within the first 90 days of employment. The training must address the following health and safety topics: prevention and control of infectious diseases; prevention of sudden infant death syndrome and use of safe sleeping practices; administration of medication, consistent with standards for parental consent; prevention of and response to emergencies due to food and allergic reactions; building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic; prevention of shaken baby syndrome and abusive head trauma; emergency preparedness and response planning for emergencies resulting from a natural disaster, or threatening event such as violence at the facility; handling and storage of hazardous materials and the appropriate disposal of bio contaminants; and precautions in transporting children (if applicable).

It was determined based on review of records that health and safety training was not completed by the Provider.

POI (Plan of Improvement)
