Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

### Staffing and Supervision

591-1-1-.32 Supervision(CR)

Not Met

#### Finding Associated with Complaint

591-1-1-.32(7) requires that children be supervised at all times appropriate to the individual age, needs and capabilities of each child. Such supervision must include, but not be limited to, indoor and outdoor activities, mealtimes, naptime, transportation, field trips, and transitions between activities. "Supervision" means that the appropriate number of Staff members are physically present in the area where children are being cared for and are providing watchful oversight to the children, volunteers and Students-in-Training. The persons supervising in the child care area must be alert, positioned to maximize their ability to hear and see the children at all times, and able to respond promptly to the needs and actions of the children being supervised, as well as the actions of the volunteers and Students-in-Training, and provide timely attention to the children's actions and needs. Staff shall be attentive and participating with all children during mealtimes and shall be seated within an arm's length away from children thirty-six (36) months of age and younger. It was determined based on statements, interviews, and investigation that the allegation is substantiated. Staff statements as well as interviews with staff revealed that on October 11, 2022, four staff members were supervising a group of twenty-four children on the playground. Approximately four staff members were positioned in different areas on the playground. According to the diagram submitted, staff were positioned in a way that they were able to actively supervise the children but not in a way that any staff member observed the three-year-old child in care fall and cause injury to their chin where medical attention was needed. One staff member was inside the school, one staff member was facing the structure and two staff member close to the farm area on the playground area. As the staff member turned to face the concrete walkway next to the boardwalk is when the staff member observed the child crying and bleeding. The consultant observed the area where the incident occurred, and the area was in good repair and not observed to be a tripping hazard. Staff immediately went to the aid of the child and administered first aid and notified the parent. Professional medical attention was obtained. The child received four stitches in the chin area. The child remains in care currently and the parent has no immediate concerns.

#### POI (Plan of Improvement)

The Center will train Staff and monitor to ensure they are providing supervision and watchful oversight to the children at all times.
