Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

Finding Associated with Complaint

591-1-1-.03(8) requires a center to provide individual attention to each child by responding promptly to the child's distress signals and need for comfort.

It was determined that on February 24, 2023, a staff person did not provide individual attention after a one-year-old child fell and sustained a bruise on the forehead. During lunch, the staff person began handing out the milk cups while standing next to the table. As the staff person's back was turned briefly, the child stood up. The child lost their balance and hit their head on the arm of the adjacent child's chair. The staff person turned when the child cried but did not immediately respond to the child. The staff person passed out milk to two more children then placed the child back in their chair. After passing out all the milk, the staff person sat down behind the child but did not check for any injuries. During a diaper change directly after lunch, a small bruise was observed between the child's eyebrows. The child received professional medical treatment as a precaution.

POI (Plan of Improvement)

The Center will provide staff training in when and how to respond appropriately to children's distress signals and need for comfort.
