Supervision	
5 - Children Supervised	Not In Compliance
922 KAR 2:120. Section 2. Child Care Services. (3)(a) Each center shall maintain a child-care program that assures each child will be: 1. Provided with adequate supervision at all times by a qualified staff person who: a. Ensures the child is within scope of vision and range of voice; or b. For a school-age child, within scope of vision or range of voice; Findings: General: Based on Observation, at the time of the visit the staff person in the two (2) year old room opened the classroom door and three (3) of the children left the room and went down the hallway. The staff person was standing in the doorway and was attempting to get the children together to take them down the hall to the bathroom. The staff person called for the children to come back because not all of the children in the room were ready. All but one (1) of the children returned back to the room. The child who did not return turned the corner and was found sitting on the floor against the wall by the bathroom. There were no adults in the area where the child was sitting. The child could not be seen from doorway of the classroom. The staff person remained in the doorway of the classroom with the other children in the room. The staff person then took the children down the hallway to the bathroom. The child was left unsupervised for approximately one (1) minute. An interview with the staff person found that there were some of the children in the room that were still wanting to play with toys and not put them away when the door was opened to go to the bathroom.
