(full day of care) 30

*Maximum Group Size shall be applicable only to Type I child-care centers.

Inspection Report**Outdoor Play Area****675 - Fence Requirement****Not In Compliance****922 KAR 2:120. Section 4. Premises Requirements.****(20) An outdoor play area shall be:**

(a) Except for an after-school child-care program, located on the premises of a public or state-accredited nonpublic school, fenced for the safety of the children;

Findings:

General: Based on Observation, at the time of the survey a climbing structure surround by plastic landscape timbers and mulch and two (2) stationary metal pieces of quipment with steering wheels and a stationary tricycle track were observed in an area beside a fenced area covered with a blue canopy. An interview with staff found that the two (2) to three (3) year old class and the preschool class play in the space that is unfenced. Further interview found that orange cones are placed around the area. It as also found that the playground had been installed in April 2016 by a company through the Head Start program with which the facility has a partnership contract. Further interview found that written permission had not been obtained from the parents allowing the children to play in the unfenced area. The playground is located at the end of the building and is near parking for the front of the building and other buisness located in connecting buildings to the facility. During an interview with a Head Start representative who was at the facility at the time it was indicated that a fence has been purchased but they are waiting for it to be installed.

695 - Protective Surface**In Compliance****922 KAR 2:120. Section 4. Premises Requirements.****(21) A protective surface shall:****(a) Be provided for outdoor play equipment used to:**

- 1. Climb;**
- 2. Swing; and**
- 3. Slide; and**

(b) Have a fall zone equal to the height of the equipment.
