Inspection Report

First Aid/Medication

Not In Compliance

730 - Medication

Not In Compliance

922 KAR 2:120. Section 7. First Aid and Medicine.

(6) Medication, including refrigerated medication, shall be:

(a) Stored in a separate and locked place, out of the reach of a child unless the medication is:

- 1. A first aid supply and is maintained in accordance with subsection (1) of this section;
- 2. Diaper cream, sunscreen, or toothpaste. Diaper cream, sunscreen, or toothpaste shall be inaccessible to a child;
- 3. An epinephrine auto-injector. A licensed child-care center shall comply with KRS 199.8951 and 311.646, including:
  - a. An epinephrine auto-injector shall be inaccessible to a child;
  - b. A child-care center shall have at least one (1) person onsite who has received training on the administration of an epinephrine auto-injector if the child-care center maintains an epinephrine auto-injector;
  - c. A child-care center shall seek emergency medical care for a child if an auto-injector is administered to the child; and
  - d. A child-care center shall report to the child's parent and the cabinet in accordance with 922 KAR 2:090, Section 12(1)(b) if an epinephrine auto-injector is administered to a child; or
- 4. An emergency or rescue medication for a child in care, such as medication to respond to diabetic or asthmatic condition, as prescribed by the child's physician. Emergency or rescue medication shall be inaccessible to a child in care;

(b) Kept in the original bottle; and

(c) Properly labeled.

(7) Medication shall not be given to a child if the medication's expiration date has passed.

Findings:

General: Based on observation in the toddler room, there was a pre-measured syringe in a child's lunch box containing "Bethanechol". There was no label indicated drug facts or the name of the medication on the syringe. The medication syringe did not have a child's name listed on it, nor was it in a locked container.
